

*Studio Gazzani*  
With Experience. Since 1955

**THERE IS NOT ONLY THE DRAGHI GOVERNMENT CRISIS: NOW THE NEW  
BUSINESS CRISIS CODE HAS COME INTO FORCE.  
THE NEW ITALIAN CORPORATE CRISIS & INSOLVENCY CODE.**

On 15 July 2022 the Corporate Crisis and Insolvency Code came into force placing new obligations on all Italian companies, regardless of their activity and size. They are:

- For individual entrepreneurs, to adopt suitable measures to promptly identify a crisis; and
- For collective entrepreneurs, to set up an organizational, administrative and accounting structure adequate pursuant to art. 2086 of the Italian Civil Code, for the purpose of the timely detection of a state of crisis and the adoption of suitable initiatives.

We at Studio Gazzani do not want to put your business in crisis. We can help clients navigate the new system and take advantage of the opportunities that the new regulatory framework offers to companies, creditors and investors.

We are your reference point for business consulting. For us, it is not just a service: it is a discipline that intends to shape a new way of interpreting business results and understanding your business, enabling it to be increasingly solid, effective and efficient in this market.

Studio Gazzani, offering accounting, audit, and tax services, is present in Milan, Verona, Bovolone, Isola della Scala and Rome, it is close to your company.
