

GMNI ANNOUNCES A NEW INTERNATIONAL CHAIRMAN

Steve Handler, partner in member firm MichaelSilver in Chicago, becomes International Chairman.

Steve steps up from the position of Vice Chairman, a post he has held for two years, to take over from Graeme Bursack who has now completed his two-year term.

Steve has been actively involved in GMNI since MichaelSilver first joined the association in 2011, becoming Treasurer for our North American region that same year. The following year he was elected to his regional board, also becoming one of the region's two representatives on our International Executive Committee. He was elected on to GMNI's Management Committee in 2018 and two years later became our Vice Chairman. Steve has also played a major role in hosting both regional and international GMNI conferences.

Steve is also on the board of numerous Chicago-area international organisations.
